

Monday, Oct. 18, 1971

Dear Vicki and Jim,

It is a rainy morning and the nights have been cold so it is really fall here. I always look at the temperature in the paper for Wash. D.C. so I know it is still warm there.

Mary and Mike were over for dinner yesterday and we played bridge and I had a fire in the fireplace. Mike is on a diet and all he can eat is meat and some vegetables. He drove to Chicago in three days and then attended meetings in Wash. D.C. and then flew back.

Your trip to Montreal sounded wonderful. Stella and Harold also said it was like being in France and they had a hard time getting around.

I really got excited about meeting

you in Boston but dad said he wouldn't be able to take the time off and besides we kind of plan to go to Sweden next year. I would rather meet you there in Boston than go to Sweden.

Gail and Gregg have moved into a duplex on 104th and 19th so they are real close to both Stella and me. Gregg came over last week to borrow the lawn mower.

Stella is in Reno and I hope she is having a good time.

I will go down and mail this now and then spend the rest of the day studying Swedish. With two classes a week I always have a lot to do.

Thanks for the check.

Love,

Mom.
